

PRESS RELEASE

FOR IMMEDIATE RELEASE

December 27, 2007

DUNCAN PARK EXPLORATION PROGRAM UPDATE

Toronto, Ontario - Duncan Park Holdings Corporation (TSXV: DPH) announces that it intends to resume a drilling program on its Rock Creek project during the first quarter of 2008.

Initial plans call for approx. 3,000 feet of drilling, but the Company is investigating several potential financing options that might, if successful, enable it to expand the scope of the program to include more than 10,000 feet of drilling in the first half of 2008.

The Rock Creek project, in which Duncan Park holds a 100% interest, consists of 456 claims (270 owned and 186 leased) located in northern Nevada, 30 miles east-northeast of Battle Mountain. The property is located along the Northern Nevada Rift, a major geologic feature that hosts high-grade, vein gold properties like Midas, Ivanhoe and Silver Cloud. The property had shallow, intermittent exploration in the past. None of the earlier drilling tested deeper levels (greater than 700 feet vertical depth from surface) for high-grade mineralization associated with boiling zones during vein formation.

Duncan Park completed four deeper holes on Rock Creek in 2006, detailed in prior press releases dated April 2, 2007, November 9, 2006 and August 10, 2006, that are available for review under the Company's SEDAR profile at www.sedar.com and on the Company's website. A November 10, 2006 release announced the acquisition of 270 additional claims to more than double the land package to the current position of 456 claims.

The Company had initially intended to commence additional drilling on Rock Creek in late 2007. However, the untimely passing of former President, Leonard Taylor in August 2007, and unexpected difficulties and delays lining up a driller prevented the Company from initiating its drilling program in late 2007.

The technical data herein and the contents of this press release have been reviewed by Mr. Larry Kornze, a director of Duncan Park, who is designated as the qualified person for purposes of National Instrument 43-101, with the ability and authority to verify the authenticity and validity of this technical data.

Cautionary Note Regarding Forward-Looking Information

This press release contains "forward-looking information", within the meaning of applicable Canadian securities legislation, concerning the business and operations of Duncan Park. Forward-looking information includes, but is not limited to, information with respect to exploration activities and plans as well as possible financing options. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Duncan Park, to be materially different from those expressed or implied by such forward-looking information, including, but not limited, to: risks related to future commodity prices, government regulation, regulatory approvals, environmental risks, availability of contractors and other risks associated with mineral exploration and financings as well as changes in project parameters as plans continue to be refined. Although Duncan Park has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. Duncan Park does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
