**Duncan Park Holding Corporation Announces Commencement of New Drilling
Program on Elephant Property**

Toronto, Ontario - Duncan Park Holdings Corporation (TSXV: DPH) is pleased to announce it is commencing a new drilling program on its Elephant Gold and Silver property located in the Battle Mountain mining district, Nevada. The property abuts Newmont Mining's Phoenix project.

The Company is initiating a 5,000 ft. drilling program, which is intended to increase and verify the width and strike length (north to south) of the mineralized zone reported in the Company's September 7, 2005 press release.

An IP survey conducted by Zonge Geophysics in 2004 indicated that target area may be 1,200 ft. wide by 5,000 ft. in length.

The work program on the Company's property is being conducted in connection with a joint venture agreement with Randsburg International Gold Corp., which has a 37% interest in the project.
